- Experience with Microsoft Office Suite (Word, Excel, PowerPoint, etc.)
- Strong writing skills
- Understand and follow protocol for the proper lines of communication
- Clear understanding of company mission and values.
- Ability to work independently and as part of a team.

POLICIES

Dress Code Policy

West Virginia Simulated Workplace's objective in establishing a dress code is to permit employees to work comfortably, but safely within the learning environment. Employees must project professionalism at all times, as one never knows if potential or current customers, visitors or students may visit the company unexpectedly.

Due to the variance in business and industry models in which all companies revolve around, each simulated workplace is required to develop a dress code conducive to their company. The following template will assist and guide instructors and students in developing their company dress code.

All casual clothing is not suitable for the workplace. These guidelines will help the supervisor and employees determine appropriate dress for their company.

** Clothing considered suitable for hanging out, hunting, yard work, exercise sessions, or social events is not always appropriate for work environments.*

- Clothing that reveals too much cleavage, your back, your chest, your feet, your stomach or your underwear is not appropriate for a place of business, even within the Simulated Workplace classroom.
* If you can trip over your jeans because the legs are too long it is a safety issue.
- Even in a business casual work environment, clothing should be pressed and never wrinkled.
- Torn, dirty, or frayed clothing is unacceptable.
- Any clothing that has words, terms, or pictures that may be offensive to other employees, customers or visitors is unacceptable.
- Clothing depicting the school or company logo is encouraged.
- Sports team, university, and fashion brand names on clothing are generally acceptable.
- Certain days may require specific dress. Interviews, presentations, field trips, or when visitors are coming to the classroom, employees may be required to wear a company shirt with clean jeans or kaki's.
- No dress code can cover all contingencies; therefore, employees must exert a certain amount of judgment in their choice of clothing. If employees experience uncertainty about acceptable or professional business casual attire, they are advised to ask the supervisor for approval.

Dress Code Policy

Shoes and Footwear

- Shoes and Footwear: (**Leather Boots**) are acceptable for Simulated Workplace environments.
- Flip-flops, slippers, and any shoe with an open toe are ***not acceptable*** at Simulated Workplace environments due to safety violations.
- (**Leather Boots**) shoes/boots are required in the manufacturing operation area.
- Inappropriate attire for work includes:
 - a. (**Pants with holes**)
 - b. (**Shorts**)
 - c. tank tops; midriff tops; shirts with potentially offensive words, terms, logos, pictures, cartoons, or slogans; halter-tops; tops with bare shoulders; sweatshirts, and t-shirts unless worn under another blouse, shirt, jacket, or dress.

Jewelry, Makeup, Perfume, and Cologne

- Jewelry, makeup, perfume, and cologne should be in good taste. Remember, that some co-workers, customers or visitors may be allergic to the chemicals in perfumes and make-up, so wear these substances with restraint.
- Body piercing should be limited and in some instances removed or covered, in order to comply with safety regulations.
- Tattoos should be limited and in some instances covered, especially if they may be offensive to co-workers, customers or visitors.

Hats and Head Covering

- Hats are ***not appropriate*** in an office environment.
- If clothing fails to meet these standards, as determined by the employees and supervisor, the offending employee will be reprimanded in accordance to the disciplinary policies and procedures of the company. If the problem persists, progressive disciplinary action will be applied for each dress code violation.

Tobacco Free Workplace Policy

Washington Restoration and Repair Tobacco Free Policy is dedicated to providing a healthy, comfortable, and productive work environment for our employees.

Numerous studies have found that secondhand smoke is a major contributor to indoor air pollution. Breathing secondhand smoke (also known as tobacco smoke pollution) is a main cause of disease in healthy nonsmokers, including heart disease, stroke, respiratory disease, and lung cancer. The National Cancer Institute determined in 1999 that secondhand smoke is responsible for the early deaths of up to 65,000 Americans annually. The Americans with Disabilities Act, which requires that disabled persons have access to public places and workplaces, deems impaired respiratory function to be a disability.

The U.S. Surgeon General has determined that the simple separation of smokers and nonsmokers within the same air space may reduce, but does not eliminate, the exposure of nonsmokers to secondhand smoke. The Environmental Protection Agency has determined that secondhand smoke cannot be reduced to safe levels in businesses by high rates of ventilation. Air cleaners, which are only capable of filtering the particulate matter and odors in smoke, do not eliminate the known toxins in secondhand smoke. A significant amount of secondhand smoke exposure occurs in the workplace.

Employees who work in smoke-filled businesses suffer a 25-50% higher risk of heart attack and higher rates of death from cardiovascular disease and cancer, as well as increased acute respiratory disease and measurable decrease in lung function.

Smoke-filled workplaces result in higher worker absenteeism due to respiratory disease, lower productivity, higher cleaning and maintenance costs, increased health insurance rates, and increased liability claims for diseases related to exposure to secondhand smoke.

In light of these findings, **Washington Restoration and Repair** shall be entirely tobacco free effective **8/25/16**. Smoking shall not be permitted in any enclosed company/school facility. This includes common work areas, auditoriums, classrooms, conference and meeting rooms, private offices, elevators, hallways, medical facilities, cafeterias, employee lounges, stairs, restrooms, vehicles, and all other enclosed facilities. This policy applies to all employees, clients, contractors, and visitors.

Copies of this policy shall be distributed to all employees.

Drug Free Workplace Policy

Washington Restoration and Repair is committed to providing a safe work environment and to promoting and protecting the health, safety, and wellbeing of our employees. This commitment is jeopardized when any **Washington Restoration and Repair** employee engages in use, possession, sale, conveyance, distribution or manufacture of illegal drugs, intoxicants, controlled substances or abuses prescription drugs or alcohol. Substance abuse is a significant public health problem, which has a detrimental effect on the business community in terms of productivity, absenteeism, accidents, medical costs, theft, and workers' compensation costs. Therefore, **Washington Restoration and Repair** has established the following policy:

- It is a violation of company policy for any employee to use, possess, sell, convey, distribute, or manufacture illegal drugs, intoxicants, or controlled substances, or to attempt to do the same.
- It is a violation of company policy to use or be under the influence of alcohol anytime during hours of business operation while on or using company property.
- It is a violation of company policy for anyone to use prescription drugs illegally. It is the responsibility of the employee to report the use of prescribed drugs, that **MAY** (per warning labels provided by the pharmacy) affects the employee's judgment, performance, or behavior.
- Violations of this policy are subject to disciplinary action up to and including termination of employment and expulsion from school per your county school board policies.

Washington Restoration and Repair values its employees and recognizes the need for a balanced approach to achieving a drug free workplace. Our comprehensive program includes the following components:

Washington Restoration and Repair drug free workplace policy is intended to comply with all state laws governing drug and alcohol testing and is designed to safeguard employee privacy rights to the fullest extent of the law.

I have read and understand the above policy.

Employee Signature

This policy in no way supersedes the county/school policy.

Weapon-Free Workplace Policy

The purpose of this policy is to ensure that **Washington Restoration and Repair** maintains a workplace safe and free of violence for all employees, the company prohibits the possession or use of perilous weapons on company property. A license to carry the weapon on company property does not supersede company policy. Any employee in violation of this policy will be subject to prompt disciplinary action, up to and including termination or expulsion from the Simulated Workplace program. School and county policies for disciplinary measures regarding weapons on a school campus will be upheld. All company employees are subject to this provision, including contract and temporary employees, visitors and customers on company property.

“Company property” is defined as all company-owned or leased buildings and surrounding areas such as sidewalks, walkways, driveways and parking lots under the company’s ownership or control. This policy applies to all company-owned or leased vehicles and all vehicles that come onto company property.

“Dangerous weapons” include, but are not limited to, firearms, explosives, knives and other weapons that might be considered dangerous or that could cause harm. Employees are responsible for making sure that any item possessed by the employee is not prohibited by this policy.

Washington Restoration and Repair reserves the right at any time and at its discretion to search all company-owned or leased vehicles and all vehicles, packages, containers, briefcases, purses, lockers, desks, enclosures and persons entering its property, for the purpose of determining whether any weapon has been brought onto its property or premises in violation of this policy. Employees who fail or refuse to promptly permit a search under this policy will be subject to discipline up to and including a termination.

This policy is administered and enforced by the Simulated Workplace supervisor and school administration.

Cell Phone Policy

The cellular phone policy applies to any device that makes or receives phone calls, leaves messages, sends text messages, surfs the Internet, or downloads and allows for the reading of and responding to email whether the device is company-supplied or personally owned.

Cell Phones or Similar Devices at Work

Washington Restoration and Repair is aware that employees utilize their personal or company-supplied cellular phones for business purposes. At the same time, cell phones are a distraction in the workplace. To ensure the effectiveness of instruction/hands-on activities, in addition to safety of all employees; all employees are asked to leave cell phones at their desk or out of the working/learning environment. Nevertheless, on the unusual occasion of an emergency or anticipated emergency that requires immediate attention, please inform your supervisor and ask for guidance.

Employees who violate this policy will be subject to disciplinary actions, up to and including **EMPLOYMENT TERMINATION**.

This policy does not supersede the local school or county board of education policy.

Employee Signature

This policy in no way supersedes the county/school policy.

Computer and Internet Policy

Voice mail, email, and Internet usage assigned to an employee's computer or telephone extensions are solely for the purpose of conducting Company business. Some job responsibilities at Washington Repair and Restoration require access to the Internet and the use of software, in addition to the Microsoft Office suite of products. Only people appropriately authorized, for Company purposes, may use the Internet or access additional software.

Internet Usage

Internet use, on **Washington Restoration and Repair** time, is authorized to conduct Company business only. Internet use brings the possibility of breaches to the security of confidential Company information. Internet use also creates the possibility of contamination to **Washington Restoration and Repair** networking system via viruses or spyware. Spyware allows unauthorized people, outside the Company, potential access to Company passwords and other confidential information.

Removing such programs from the **Washington Restoration and Repair** network requires IT staff to invest time and attention that is better devoted to progress. For this reason, and to assure the use of work time appropriately for work, we ask employees to limit Internet use.

Additionally, under no circumstances may Company computers or other electronic equipment be used to obtain, view, or reach any pornographic, or otherwise immoral, unethical, or non-business-related Internet sites. Doing so can lead to disciplinary action up to and including **TERMINATION OF EMPLOYMENT**.

Email Usage at Company

Email is to be used for **Washington Restoration and Repair** business only. Company confidential information must not be shared outside of the Company, without authorization, at any time. Employees are not to conduct personal business using the Company computer or email.

Please keep this in mind, when considering, forwarding non-business emails to associates, family or friends. Non-business related emails waste company time and attention.

Viewing pornography, or sending pornographic jokes or stories via email, is considered **SEXUAL HARASSMENT** and will be addressed according to the company's sexual harassment policy.

Emails That Discriminate

Any emails that discriminate against employees by virtue of any protected classification including race, gender, nationality, religion, and so forth, will be addressed according to the company's harassment policy.

These emails are prohibited at **Washington Restoration and Repair**. Sending or forwarding non-business emails will result in disciplinary action that may lead to **EMPLOYMENT TERMINATION**.

Company Owns Employee Email

Keep in mind that the Company owns any communication sent via email or that is stored on company equipment. Management and other authorized staff have the right to access any material in your email or on your computer at any time. Do not consider your electronic communication, storage or access to be private if it is created or stored within the company networking system.

This policy in no way supersedes the county/school policy.

Social Media Policy

Washington Restoration and Repair recognizes the importance of the Internet in shaping public thinking about your company and our current and potential products, employees, partners, and customers.

Washington Restoration and Repair also recognizes the importance of our employees joining in and helping shape industry conversation and direction through blogging and interaction in **SOCIAL MEDIA**.

Therefore, **Washington Restoration and Repair** is committed to supporting your right to interact knowledgeably and socially in the blogosphere and on the Internet through blogging and interaction in social media.

Consequently, these guidelines in this blogging and social media policy will help you make appropriate decisions about your work-related blogging and the contents of your blogs, personal Web sites, postings on wikis and other interactive sites, postings on video or picture sharing sites, or in the comments that you make online on blogs, elsewhere on the public Internet, and in responding to comments from posters either publicly or via email. The West Virginia Department of Education Internet Use Policy and Email Policies remain in effect within Simulated Workplace environment.

These guidelines will help employees open up a respectful, knowledgeable interaction with people on the Internet. They also protect the privacy, confidentiality, and interests of **Washington Restoration and Repair** as well as current and potential products, employees, partners, customers, and competitors.

Guidelines for Interaction about Washington Restoration and Repair on the Internet

- If employees are developing a Web site or writing a blog that will mention **Washington Restoration and Repair** and/or current and potential products, employees, partners, customers, and competitors, identify that you are an employee of **Washington Restoration and Repair** and that the views expressed on the blog or Web site are yours alone and do not represent the views of the company.
- Unless given permission by your supervisor; employees are not authorized to speak on behalf of **Washington Restoration and Repair**, or to represent that you do so.
- If you are developing a site or writing a blog that will mention **Washington Restoration and Repair** and/or current and potential products, employees, partners, customers, and competitors, as a courtesy to the company, please let your manager know that you are writing them. Your supervisor may choose to visit from time to time to understand your point of view.

Confidential Information Component of the Blogging/Social Media Policy

- Employees may not share information that is confidential and proprietary about the company. This includes information about trademarks, upcoming product releases, sales, finances, number of products sold, number of employees, company strategy, and any other information that has not been publicly released by the company.

These are given as examples only and do not cover the range of what the company considers confidential and proprietary. If you have any question about whether information has been released publicly or doubts of any kind, speak with your manager and the Public Relations department before releasing information that could potentially harm **Washington Restoration and Repair** or our current and potential products, employees, partners, and customers. Employees may also want to be aware of the points made in the non-disclosure agreement signed when they joined **Washington Restoration and Repair**.

- Company logos and trademarks may not be used without explicit permission in writing from the company. This is to prevent the appearance that employees speak for or represent the company officially.

Respect and Privacy Rights Components of the Blogging/Social Media Policy

- Speak respectfully about the **Washington Restoration and Repair** and current and potential employees, customers, partners, and competitors. Do not engage in name calling or behavior that will reflect negatively on **Washington Restoration and Repair** reputation. Note that the use of copyrighted materials, unfounded or derogatory statements, or misrepresentation is not viewed favorably by **Washington Restoration and Repair** and can result in disciplinary action up to and including EMPLOYMENT TERMINATION.
- **Washington Restoration and Repair** encourages employees to write knowledgeably, accurately, and using appropriate professionalism. Despite disclaimers, your Web interaction can result in members of the public forming opinions about **Washington Restoration and Repair** and its employees, partners, and products.
- Honor the privacy rights of current employees by seeking their permission before writing about or displaying internal company happenings that might be considered to be a breach of their privacy and confidentiality.

Competition Component of the Blogging Policy

- Employees may not sell any product or service that would compete with any of **Washington Restoration and Repair** products or services without permission in writing from the president. This includes, but is not limited to training, books, products, and freelance writing. If in doubt, talk with your manager and the president.

Your Legal Liability Component of the Blogging Policy

- Recognize that you are legally liable for anything you write or present online. Employees can be disciplined by the company for commentary, content, or images that are defamatory, pornographic, proprietary, harassing, libelous, or that can create a HOSTILE WORK ENVIRONMENT. Employees can also be sued by company employees, competitors, and any individual or company that views your commentary, content, or images as defamatory, pornographic, proprietary, harassing, libelous or creating a hostile work environmet

Media Contact Component of the Blogging Policy

- Media contacts about **Washington Restoration and Repair** and current and potential products, employees, partners, customers, and competitors should be referred to your supervisor or the administrator of your school.

Employee Signature

This policy in no way supersedes the county/school policy.

Policy Against Workplace Harassment

Washington Restoration and Repair is committed to providing a work environment for all employees that is free from sexual harassment and other types of discriminatory harassment. Employees are expected to conduct themselves in a professional manner and to show respect for their co-workers.

Washington Restoration and Repair commitment begins with the recognition and acknowledgment that sexual harassment and other types of discriminatory harassment are, of course, unlawful. To reinforce this commitment, **Washington Restoration and Repair** has developed a policy against harassment and a reporting procedure for employees who have been subjected to or witnessed harassment. This policy applies to all work-related settings and activities, whether inside or outside the workplace, and includes field trips and school-related social events.

Washington Restoration and Repair property (e.g., telephones, copy machines, facsimile machines, computers, and computer applications such as e-mail and Internet access) may not be used to engage in conduct that violates this policy. **Washington Restoration and Repair** policy against harassment covers employees and other individuals who have a relationship with **Washington Restoration and Repair** which enables **Washington Restoration and Repair** to exercise some control over the individual's conduct in places and activities that relate to **Washington Restoration and Repair** work (e.g., directors, officers, contractors, vendors, volunteers, etc.).

Prohibition of Sexual Harassment: **Washington Restoration and Repair** policy against sexual harassment prohibits sexual advances or requests for sexual favors or other physical or verbal conduct of a sexual nature, when: (1) submission to such conduct is made an express or implicit condition of employment; (2) submission to or rejection of such conduct is used as a basis for employment decisions affecting the individual who submits to or rejects such conduct; or (3) such conduct has the purpose or effect of unreasonably interfering with a employees work performance or creating an intimidating, hostile, humiliating, or offensive working environment.

While it is not possible to list all of the circumstances which would constitute sexual harassment, the following are some examples: (1) unwelcome sexual advances -- whether they involve physical touching or not; (2) requests for sexual favors in exchange for actual or promised job benefits such as favorable reviews, salary increases, promotions, increased benefits, or continued employment; or (3) coerced sexual acts.

Depending on the circumstances, the following conduct may also constitute sexual harassment: (1) use of sexual epithets, jokes, written or oral references to sexual conduct, gossip regarding one's sex life; (2) sexually oriented comment on an individual's body, comment about an individual's sexual activity, deficiencies, or prowess; (3) displaying sexually suggestive objects, pictures, cartoons; (4) unwelcome leering, whistling, deliberate brushing against the body in a suggestive manner; (5) sexual gestures or sexually suggestive comments; (6) inquiries into one's sexual experiences; or (7) discussion of one's sexual activities.

While such behavior, depending on the circumstances, may not be severe or pervasive enough to create a sexually hostile work environment, it can nonetheless make co-workers uncomfortable. Accordingly, such behavior is inappropriate and may result in disciplinary action regardless of whether it is unlawful.

It is also unlawful and expressly against **Washington Restoration and Repair** policy to retaliate against an employee for filing a complaint of sexual harassment or for cooperating with an investigation of a complaint of sexual harassment.

Prohibition of Other Types of Discriminatory Harassment: It is also against **Washington Restoration and Repair** policy to engage in verbal or physical conduct that denigrates or shows hostility or aversion toward an individual because of his or her race, color, gender, religion, sexual orientation, age, national origin, disability, or other protected category (or that of the individual's relatives, friends, or associates) that: (1) has the purpose or effect of creating an intimidating, hostile, humiliating, or offensive working environment; (2) has the purpose or effect of unreasonably interfering with an individual's work performance; or (3) otherwise adversely affects an individual's employment opportunities.

Depending on the circumstances, the following conduct may constitute discriminatory harassment: (1) epithets, slurs, negative stereotyping, jokes, or threatening, intimidating, or hostile acts that relate to race, color, gender, religion, sexual orientation, age, national origin, or disability; and (2) written or graphic material that denigrates or shows hostility toward an individual or group because of race, color, gender, religion, sexual orientation, age, national origin, or disability and that is circulated in the workplace, or placed anywhere in **Washington Restoration and Repair** premises such as on an employee's desk or workspace or on **Washington Restoration and Repair** equipment or bulletin boards. Other conduct may also constitute discriminatory harassment if it falls within the definition of discriminatory harassment set forth above.

It is also against **Washington Restoration and Repair** policy to retaliate against an employee for filing a complaint of discriminatory harassment or for cooperating in an investigation of a complaint of discriminatory harassment.

Reporting of Harassment: If you believe that you have experienced or witnessed sexual harassment or other discriminatory harassment by any employee, report the incident immediately to your supervisor or principal. Possible harassment by others with whom **Washington Restoration and Repair** has a business relationship, including customers and vendors, should also be reported as soon as possible so that appropriate action can be taken.

Washington Restoration and Repair will promptly and thoroughly investigate all reports of harassment as discreetly and confidentially as practicable. The investigation would generally include a private interview with the person making a report of harassment. It would also generally be necessary to discuss allegations of harassment with the accused individual and others who may have information relevant to the investigation. **Washington Restoration and Repair** goal is to conduct a thorough investigation, to determine whether harassment occurred, and to determine what action to take if it is determined that improper behavior occurred.

If **Washington Restoration and Repair** determines that a violation of this policy has occurred, it will take appropriate disciplinary action against the offending party, which can include counseling, warnings, suspensions, and termination. Employees who report violations of this policy and employees who cooperate with investigations into alleged violations of this policy will not be subject to retaliation.

Compliance with this policy is a condition of each employee's employment. Employees are encouraged to raise any questions or concerns about this policy or about possible discriminatory harassment with the supervisor or principal. *This policy in no way supersedes the county/school policy.*

Attendance Policy

- All recommendations and timeframes must be in accordance with WV Board of Education Policy 4110.
- All recommendations and timeframes must also be in accordance with local district attendance policies.
- Defined Absences:
 - “Excused”
 - Planned absence for a doctor appointment with an accompanying doctor note upon return.
 - Parent notes (accepted according to each individual district policy (e.g., up to five parent notes will be accepted per school year)
 - “Unexcused”
 - Unplanned absences for any reason not accompanied by either a parent or doctor note.

This policy in no way supersedes the county/school policy.

Sick and Leave Policy for Washington Restoration and Repair

12 Sick Days Per Year

3 Personal Days

By the end of the school day, you must notify by e-mail whether you are using the day as a sick or personal day. Service manager will keep a record of each employee’s sick and personal days that have been used.

The contact e-mail is:

WASHINGTONMECHANICS@GMAIL.COM

Failure to notify the Service Manager will result in a zero for the day. If you wish to make up the time, you must make arrangements with the instructor

Safety Policies and Procedures

Why is Workplace Safety Important?

Workplace safety is about preventing injury and illness to employees in the workplace. Therefore, it's about protecting the company's most valuable asset: its *employees*. By protecting the employees' well-being, the company shall reduce the amount of money paid out in health insurance benefits, workers' compensation benefits and the cost of wages for temporary help.

Addressing Safety and Health Hazards in the Workplace

To make the workplace safer, the company has to acknowledge which potential health and safety hazards are present. Or determine *where* and *what* and *how* a worker is likely to become injured or ill. It starts with analyzing individual workstations and program areas for hazards — the potential for harm — be it a frayed electrical cord, repetitive motion, toxic chemicals, mold, lead paint or lifting heavy objects.

Job Hazard Analysis

OSHA describes a job hazard analysis as a technique that focuses on job tasks to identify hazards before they occur. The Simulated Workplace describes this analysis as ways to strengthen the entire Simulated Workplace experience. From either view, the analysis examines the relationship between the employee the task, the tools and the work environment.

Depending on the nature of the program's projects, supervisors may have to assist safety team members with the management of specific hazards associated with their tasks:

- chemical (toxic, flammable, corrosive, explosive)
- electrical (shock/short circuit, fire, static, loss of power)
- ergonomics (strain, human error)
- excavation (collapse)
- explosion (chemical reaction, over pressurization)
- fall (condition results in slip/trip from heights or on walking surfaces — poor housekeeping, uneven surfaces, exposed ledges)
- fire/heat (burns to skin and other organs)
- mechanical (vibration, chaffing, material fatigue, failure, body part exposed to damage)
- noise (hearing damage, inability to communicate, stress)
- radiation (X-rays, microwave ovens, microwave towers for radio or TV stations or wireless technology)
- struck by (falling objects and projectiles injure body)
- struck against (injury to body part when action causes contact with a surface, as when screwdriver slips)
- temperature extreme (heat stress, exhaustion, hypothermia)
- visibility (lack of lighting or obstructed vision that results in error or injury)
- weather phenomena (snow, rain, wind, ice that increases or creates a hazard)

Washington Restoration and Repair Safety Program

Any policy, procedure or training used by the company to further the safety of employees while working within the Simulated Workplace environment is considered part of a workplace safety program. Workplace safety programs to reduce work-related injury and illness are concerned with:

- promoting and rewarding safe practices at work
- reducing injuries and illnesses at work
- eliminating fatalities at work

Washington Restoration and Repair Injury and Illness Prevention

According to OSHA, work-related injury and illness prevention falls into three categories in order of priority: engineering controls, administrative controls, and personal protective equipment controls. The Simulated Workplace has adapted this list to make it more applicable to career CTE programs:

- administrative controls
- written procedures and safe work practices
- exposure time limitations (temperature and ergonomic hazards)
- monitor use of hazardous materials
- alarms, signs and warnings
- buddy system
- training

Washington Restoration and Repair safety initiatives can be as simple as closing and locking the front door; replacing burned out lights inside and out; closing drawers before walking away from the desk or file cabinet; knowing and using proper lifting techniques; providing adjustable workstations to accommodate differences in people's stature and weight to eliminate repetitive motion, back, neck and shoulder injury; and using the proper tool for the job in an appropriate fashion. These and other basics should be universally adopted safety procedures in any workplace.

Safety Culture Checklist

Characteristics of a Safety Culture	YES	NO
Safety and safety terms are part of the language of your company.		
Workplace safety practices are part of everyone's job description.		
Safe and unsafe behaviors are specified and enforced.		
Employees are rewarded for promoting safety.		
Safety concerns are evident in the interaction among employees and in their interaction with clients, co-workers, and visitors.		
New employees are briefed on safety procedures and are briefed on the consequences for ignoring safety practice or engaging in unsafe behavior.		
The consequences for ignoring safety practices are consistently enforced.		
Employees observe and follow correct hazardous protocols.		
Employees always wear and follow guidelines pertaining to protective gear and equipment.		
There is an active safety committee and meetings are well attended and documented.		

GENERAL INDUSTRY SAFETY CHECKLIST

Site: _____ Date: _____ Inspected by: _____

INSPECTION ITEM	YES	NO	N/A	COMMENTS/CORRECTIONS
GENERAL				
Job safety and health poster, and communications and emergency numbers posted				
Records of recent inspections and safety meetings available				
Adequate provisions for first aid and/or medical attention				
HOUSEKEEPING AND FACILITIES				
Are stairways, aisles and access ways kept clear?				
Are trash containers provided and emptied on a regular basis?				
Are materials stored properly?				
Are spills cleaned up immediately?				
Are walkways to the facility clear of ice and snow and illuminated?				
Are the gutters/downspouts adequate to draw water/ice away from walkways?				
Are open-sided edges longer than 4 feet protected by guardrails or covers?				
PERSONAL PROTECTIVE EQUIPMENT				
Eye protection is being used and adequate				
Head protection is utilized as needed				
Respirators are used when needed and stored correctly at other times				
Gloves are being used when needed				
Proper clothing is being worn, including foot protection				
Hearing protection is available and used				
CHEMICAL HAZARD COMMUNICATON				
Does the facility have a hazard communication program?				
Does the facility have a complete list of MSDS sheets available?				
Are chemicals properly labeled and do they have appropriate warning labels?				
Have employees received hazard communication training?				
HAND AND POWER TOOLS				
Are proper tools being used for the job?				
Are tools being maintained in a safe condition?				
Are mechanical guards in place?				

Is proper training provided for users of the tool(s)?				
ELECTRICAL				
Are electrical panels/circuits labeled and free of storage in front of panels?				
Are electrical extension cords in good repair, grounded and not used as permanent wiring?				
Are energized electrical parts protected from contact with other hazards?				
Are outdoor receptacles GFCI protected and receptacles within 6 feet of water GFCI protected?				
MATERIAL HANDLING				
Have all chains and/or slings been inspected for defects, and labeled or taken out of service if inadequate?				
Have all forklifts been inspected before use?				
FIRE PROTECTION				
Are flammable/combustible liquids stored in approved storage cabinets?				
Have the facility sprinkler/ fire alarm systems been inspected within the past 12 months?				
Do sprinklers have 18 inches of vertical clearance from stored materials?				
Are building evacuation maps posted?				
Are fire extinguishers and emergency lighting fixtures properly placed?				
Are doors/ passages unobstructed?

Accident Reporting Policy and Procedure

There must be a process put in place to report accidents, incidents or near misses for immediate action and to help track causes. The company must identify what needs to be reported, to whom it is to be reported, and how to report it, then put this process into a written procedure.

For example:

Any accident, incident, or "near miss," no matter how slight the injury or damage, must be reported to the safety team supervisor immediately for appropriate action.

The supervisor is responsible for taking appropriate follow-up action, including getting medical attention for the injured, completing an investigation report and recommending or implementing appropriate corrective actions.

The primary purpose of the accident investigation is to identify the cause(s) of the accident, incident or "near miss" and take action to prevent a similar occurrence in the future. In some instances, an employee's failure to follow recognized safety procedures requires disciplinary action to protect co-workers.

Safety Violations Reporting

Program _____

Date _____

Name of the employee _____

Name of the safety team supervisor _____

Nature of safety violation _____

Consequences for this violation _____

Was the employee put on probation? _____

Why or why not? _____

Remedial activities or training recommended _____

What type of training? _____

One copy to:

- Employee File
- Safety Team Records
- Instructor

Reporting Near Miss

A Near Miss is an event that does not result in an injury or damage. It is important to record and investigate near-misses to identify weaknesses in the company process that could possibly lead to an injury or damage.

Program _____

Date _____

Name of the employee _____

Name of the safety team supervisor _____

Nature of incident _____

Why the incident is was considered a "near miss"? _____

Was the employee counseled or reprimanded? _____

Why or why not? _____

Remedial activities or training recommended _____

What type of training? _____

One copy to:

- Employee File
- Safety Team Records
- Instructor
- School Nurse

Accident Investigation

Name of Injured Employee _____

Date of Accident _____

Job Title _____

Time of Accident _____

Program _____

Location of Accident _____

Name of Witness(s) _____

Description of Accident _____

Task Being Performed _____

Equipment, Tools, Personal Protective Equipment, Procedures Being Used: _____

Description of Injury/Illness (include accident type, injury type and body part injured): _____

Describe All Contributing Factors _____

Description of Work Area _____

Injured Employee's Account of Accident _____

Witness's Account of Accident: (Name, title, address, phone number): _____

What Were the Basic Causes of the Accident (usually multiple causes)?

Corrective measures to be implemented to prevent similar reoccurrence: _____

Was Employee Treated for Injury? If so what type of treatment? _____

Investigator's Name _____

Date of Investigation _____

One copy to:

- Employee File
- Safety Team Records
- Instructor
- School Nurse

Public Non-Discrimination Notice

Simulated Workplace programs must provide information to applicants, participants, beneficiaries, and other interested parties regarding the rights of individuals. Methods of providing this information include publication in handbooks, manuals, pamphlets, application materials, posters, etc.

Simulated Workplace Site's Public Non-discrimination Notice should be found on a variety of publications including brochures, applications, catalogs, handbooks, job announcements, posters, recruiting materials, websites, school newspapers, etc.

It also is required that a nondiscrimination notice be placed in local newspapers prior to the start of school. It counts if the county includes a statement in a general supplement, etc. (e.g., Kanawha Co. often has a back-to-school newspaper supplement that covers the upcoming school year). However, the CTE program is responsible for the following equity requirement: "Prior to the beginning of each school year, recipients must advise students, parents, employees and general public that all career and technical educational opportunities will be offered regardless of race, color, national origin, sex or disability." This must be issued annually in not only local newspapers but also institution newspapers and other publications. The annual notice must include a brief description of program offerings and admission criteria. Also a plan must be in place for disseminating the notice in any language other than English and to persons with visual impairments.

Programs should establish reasonable codes of conduct (*refer to WVBE Policy 4373*) that prohibit disruptive or inappropriate behaviors and may apply these uniformly to all students (even when the effect is to disqualify a person with a disability).
